CONFORMITY

Premier Inn

Lancaster Canal District

Client: Maple Grove
Location: Lancaster Canal District
Size: 82 Rooms

Located within Lancaster's Canal Quarter regeneration area, the proposed new hotel forms part of Maple Grove's wider vision to help bring fresh investment and activity into the city centre. Working in partnership with Lancaster City Council, the scheme will support a commercially led mixed use proposal for the Heron Works site and neighbouring land interests, strengthening the offer for visitors, business and the local economy.

The proposals will deliver modern accommodation with a focus on quality, usability and long term efficiency, helping to create a more welcoming gateway to the Canal Quarter as the wider regeneration programme progresses.

Bolton Old Link Clubhouse

Bolton

Client: Bolton Old Links Golf Club

Location: Bolton

Size: 13,450 sqft

The new design proposal moves the clubhouse further up the hillside, integrating it more closely with the golf course. The new Clubhouse will be a striking architectural feature, seamlessly blending into the landscape and offering fully accessible spaces for both public and private events. Relocating the clubhouse will also enhance the experience inside, with the sports bar and social spaces boasting stunning views of the golf course and the surrounding green countryside.

The development includes the demolition of the current clubhouse from the 1800s but does not include the demolition of Grade-II Horrobin Cottage on the same site in the Green Belt. It aims to allow for an up-to-date clubhouse in the area around the tenth hole and 12 homes in the area around the cottage.

Travel Lodge Hotel Solihull

Client: Caudwell
Location: Solihull
Size: 82 Rooms

The Solihull hotel joins the Birmingham Central Bull Ring Travelodge in offering SuperRooms, the company's increasingly popular room designed around the 'premium economy' concept familiar to airline users. This new class of room is the first of its kind in the UK budget hotel market and enhances the comfort factor for business and leisure customers who want the extra choice of a more premium room.

In a central location, the Solihull Travelodge is a few minutes' walk from the railway station and close to local amenities, including two shopping centres and a cinema as well as bars and restaurants. It is also a short drive from Birmingham Airport. The building has a rectilinear form with clean, straight lines and a block-like shape. It consists of two main volumes connected by a central section, creating an open passage for the entry point underneath.

Premier Inn Hotel Gwynedd

Client: Liberty Properties

Location: Gwynedd, Wales

Size: 88 Rooms

The hotel is set in the picturesque Snowdonia National Park with views out to Mount Snowdon, located in the breath-taking Gwynedd, North Wales. Built on the former site of Ty Moelwyn Tax Office, which was demolished as part of the development, the 88-bedroom, timber framed hotel was provided with an internal fit out to Premier Inn's turn-key specification.

With the layout requirements and constraints set, the challenge was to ensure everything was able to be accommodated. Kitchen, restaurant, and bar with a selection of accessible rooms on the ground floor, with all floors above having bedrooms and ancillary spaces.

Externally, the building utilised cracked slate cladding, render and cedar cladding to ensure that the building knitted into its surrounding context. The slate, approved by Snowdonia National Park for its use, neatly ties the building in with the Ffestiniog and Welsh Highland Railway station opposite the hotel. A large, glazed curtain wall provides the entrance to the hotel reception and restaurant area

Our Other Sectors

Our talented team of experts brings a wealth of experience across multiple disciplines, delivering projects in sectors such as:

Student Living

Morston House, Newcastle-under-Lyme

Office & Retail

Charles Street Finance, Cheadle

Education

Student Social Hub, Preston

Industrial & Logistics

Catalyst, Sheffield Business Park

Residential
